ABOUT ME

I am Eryk, I am 19 years old and I am a student of the technical school on the profile "Programming Technician". This year I managed to obtain the EE.09 qualification. I am ready to work, willing to take on challenges and put all my heart into the tasks entrusted to me. I am constantly learning and expanding my knowledge. I have a desire for personal development, I am not afraid of new things.

WORK EXPERIENCE

04/05/2021 – 31/05/2021 – Ostrzeszów, Poland

Stażysta

MikroB S.A. Zakład elementów i systemów automatyki przemysłowej

The purpose of the internship was to acquire new and enhance existing competencies and practical skills.

My tasks were:

1. Learning "SCADA PRO-2000" software - an information system that supervises the course of a technological or production process.
2. Learning basic definitions of industrial automation.
3. Learning and testing applications on the Open62 541 library - an equivalent of the OPC-UA library.

PROJECTS

11/09/2021 – CURRENT

● **Moje portfolio**

ehoze.github.io

In my opinion, every programmer needs a portfolio. I am not an exception and I created my own portfolio where you can learn more about my skills, projects and myself.

14/02/2021 – 31/05/2021

● **"Course World"**

"Course World"

Objective - Udemy 2.0

For several months I was creating a project for a site modeled after Udemy. The project was not 100% finished. It was written in the Laravel framework. There were a few finishing touches missing, however, I managed to finish everything I wanted. The site included the ability to make purchases, add funds to an account, create an account, change account details and an email notification feature. Plus also a fully functioning store and responsive design, all connected to a database.

"Course World" - The site is not public as I do not have hosting for the laravel framework.

HOBBIES AND INTERESTS

● **Sports and programming.**

Stereotypically, as a programmer or IT specialist I should not have too much to do with sport, but I love playing volleyball, walking and spending time outdoors. Whether alone, with friends or loved ones.

Currently I also have a lot of interest in the field of microcontrollers. I am interested in programming. I enjoy the fact of creating websites, programs and games. Getting to know new technologies and delving into them.
