⊗ ABOUT

I am self-motivated, able to work independently, but I can do equally well in a team. I am looking for a job that will allow me to use my skills and grow in the IT industry. I am open to news and learning

💼 PROFESSIONAL EXPERIENCE

Webmaster
Grupa TENSE Polska / Semergy / WeNet
February 2022 – present

- Specialize in optimizing websites using advanced SEO strategies, improving both front-end and back-end performance.
- Help in the department with more difficult tasks
- Modifying and optimizing website code to improve performance and functionality
- Enhancing existing websites and portals with new functionality
- Creating and customizing templates in popular content management systems (CMS)
- Adapt quickly to fast-paced environments and troubleshoot issues under pressure.
- Deliver solutions within tight deadlines, effectively managing stress and complex programming challenges.

Intern
ZEiSAP MikroB S.A.
May 2021 | Ostrzeszów, Poland

I learned the PRO-2000 SCADA software and systems, where I created basic synoptics and tested the Open62541 library, an open-source equivalent of the OPC-UA library in C/C++. This experience allowed me to improve my understanding of industrial automation and control systems.

🎓 EDUCATION

WSB Merito University in Wroclaw
Bachelor of Information Technology
2023 – present | Wrocław, Poland

Zespół Szkół Nr 2 im. Przyjaźni Polsko-Norweskiej
Programming Technician
2018 – 2022 | Ostrzeszów, Poland

After graduating from technical school, I obtained the title of programmer technician.

🎖 CERTIFICATES

- Javascript Developer: Vue.js

- Java Developer: Web

- Software Engineering Workshop - Deep Learning

✍ CONSENT

I consent to the processing of my personal data for the purpose of recruiting for the position I am applying for.
